

## Men in Sheds Newsletter

Hello to all the members, The old ones and the new, Well it looks like the Shed in Burrowbridge has finally had it's day and we will moving to the new premises in sunny Bridgwater, Just off Taunton road and also near some shops so getting milk and other things like biscuits and other tasty treats won't be a problem, So for the members that like to nibble of something sweet and tasty there's a shop just around the corner so you'll be able to get treats there.

As most of you know there has been a flurry of activity trying to get the new place ready for the next five years of giving us all somewhere to meet up with each other and from time to time make stuff and not just sitting around drinking tea and coffee, Some of the new members have been working their nuts off decorating and filling the walls with a mile of filler and mastic and also getting power points installed and installing a new kitchen and everything else to get this place ready for members old and new, there is a huge thank you to all of the people involved that have made it all possible, Colin, William, Dave Donaldson, Gerry, Steve Knowles, Geoff, John, Alan, Harry and so many other people (to be honest I don't know their names) So a very big thank you to everyone except Graham, he has been bloody useless as always, It didn't help that he had his arm operated on and that didn't work out too well for him and as always he is a waste of space and he really should be put to sleep as he is of no use to anyone, So that should cheer up Gerry and Colin, Not that I give a toss about what either of them think regarding what I do.

After talking to a few of the older Members a few of them have suggested that we re-name the Shed to Colin's Workhouse, I am not allowed to mention names as to who said it, Apparently Colin has turned into "Ivor" although he don't look like him as he hasn't resorted to violence yet although he might when he sees this and I'll be expelled from the Shed with the provision that I never return, Like I understand where he's coming from, y'know he wants everything to be perfect and everything in place for everyone and to make it a more hospitable place for Members old and new, I don't blame him, If it was me I would want all of those things as well and it has to be better than freezing your nuts off in the old place and struggling to keep warm as it was always so cold in there and you seemed to spend more time trying to warm up and the other thing was that if you did try to make something someone would interrupt you and you could never actually make anything anyway and hopefully that will change as there is now separate areas to make stuff or projects.

For any of the members that are interested I have a small stereo that I am willing to install at no charge to the "Shed" this would be in the small snug area that Colin wants, If I do install it, you should know that it will not play a CD but it can take either a USB or a TF memory card and it will pick up some radio stations on the FM band and it will accept a Auxiliary input but it has to be a 3.5 mm lead which I would provide. ( It would connect a MP3 or similar device) But I will only do this if there is a demand for this and only if Colin allows it, So really you all have to ask for Colin's permission (Please sir, can we have something for free) Sarcasm is a form of wit and Colin hates mine for some strange reason, Anyway it's all up to you lot, I'm not allowed to do anything at all now, even breathing is wrong and I am no longer allowed to swear even when things get really bad.

So finally a very big thank you to everyone involved in getting the new Shed ready and Graham is to be expelled as soon as possible and not to write any more newsletters as they don't fit with managements attitudes or their way of thinking and thankfully that is the end and you lot don't have to read any more of this crap, Oops I nearly forgot to say a big thank you to Gordon for putting this crap on the Website for everyone to read.
